

PIONEERING

THE CSLE WOMEN'S LEADERSHIP NETWORK LONDON / SOUTH EAST

At these regionally facilitated group meetings, we will provide women with an opportunity to extend networks and share experiences with other female leaders from across the sectors. Acknowledging gender issues by sharing experiences can propel awareness, improving the working environment and boosting confidence. As a member of the group you will be able to discuss your experiences and gain advice from other women. This will help tackle the challenges women face in organisations and across sectors.

WHAT YOU WILL GAIN:

- Explored and shared leadership experiences and learning through peer coaching and mentoring
- An opportunity to discuss personal experiences, work life and career goals and gain advice
- A space for gender issues and equality to be discussed without judgement
- Created a professional network to support each other, share best practices and considered how to think and act more strategically as a leader

“ I took away some real fundamentals which have completely changed my outlook and helped me focus more clearly on my next steps ”

Head of Finance, NHS
